DESCRIPTION:

EXCAVATOR 450 EC is a termiticide for treating wood, constructions and agroforestry against termites.

Target	Application Rate	Method of application
Termite nests/ colony	1 litre in 50 litres of water (100 ml in 5 Litres of water)	Break open the nest, remove the top 15 cm of the soil and flood the tunnels with emulsion, then return the treated soil. Repeat application at sign of re-infestation.
Concrete Slab		Treat the outside of the foundation wall trenches with 6-12 litres of the solution per linear meter and to depths of 40-75cm. Use more quantity for deeper foundations.
Wooden Poles and Timber		Spray the wooden poles or timber thoroughly to point of run-off. Soak mounds of fencing poles for 30 minutes.
Agroforestry		Drench the base of the tree.

AVAILABLE PACKS

50ml, 100ml, 250ml, 500ml and 1ltr
